34” 3440x1440 180 Hz E-LED Curved Gaming Monitor

INSTRUCTION MANUAL

MODEL: DGVIEW304

Precaution

Before using this product, please read this User Manual carefully and keep it well

- Keep the monitor away from water sources or damp places, such as bath rooms, kitchens, basements and swimming pools.
- Make sure the monitor is placed on a flat surface. If the monitor falls down, it may cause human injury or device damage.
- Store and use the monitor in a cool, dry and well ventilated place, and keep it away from emission and heat sources.
- Do not cover or block the vent hole in the rear casing, and do not use the product on a bed, sofa, blanket or similar objects.
- The range of the supply voltage of the monitor is printed on the label on the rear casing. If it is impossible to determine the supply voltage, please consult the distributor or local power company.
- If the monitor will not be used for a long period, please cut off the power supply to avoid electric shock in rainy days and damage due to abnormal supply voltage.
- Please use a reliable grounded socket, Do not overload the socket, or it may cause fire or electric shock.
- Do not put foreign matters into the monitor, or it may cause short circuits resulting fire or electric shock.
- Do not disassemble or repair this product by self to avoid electric shock. If faults occur, please contact the after-sales service directly.
- Do not pull or twist the power cable forcedly.
- There is a polarizer layer (not a protective film) on the surface of the screen. Do not peel it off, or the product may be damaged and the warranty will be invalid.

Package Content

Packing list

- Please check that the package of the monitor contains all parts. If any part is lost, please contact the distributor.
- The color and shape of parts may vary with models. Figures in this User Manual are for reference only.
- Cables supplied may vary with purchased products. Figures in this User Manual are for reference only.

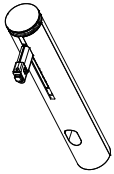
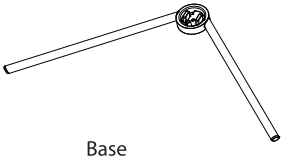
Power cable



Stand

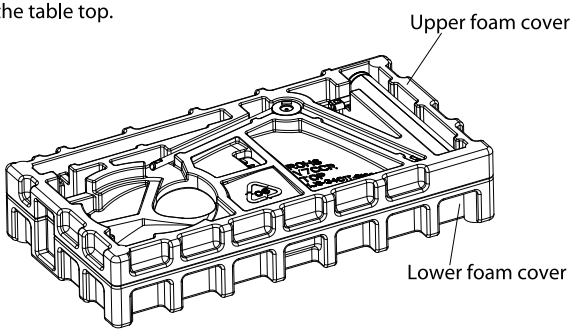


Base

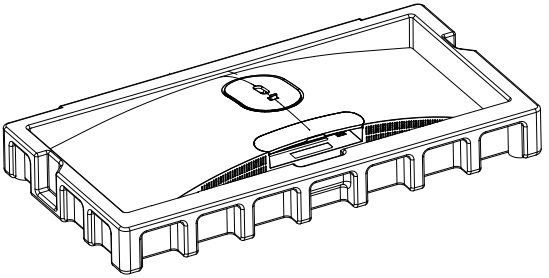
User Manual

nstallation of base

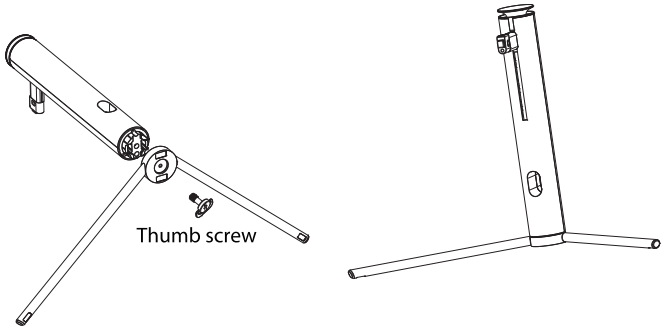
1. Open the carton package, take out the upper and lower foam covers and put them flat on the table top.



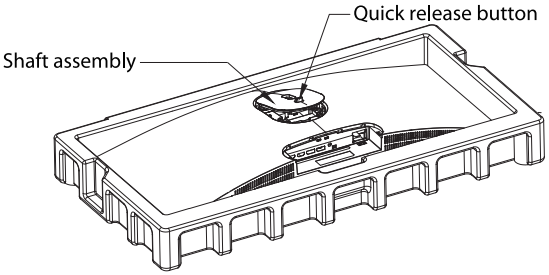
2. Remove the upper styrofoam and the inner bag protection bag, and place the lower styrofoam on the desktop, and the machine should not leave the lower styrofoam.



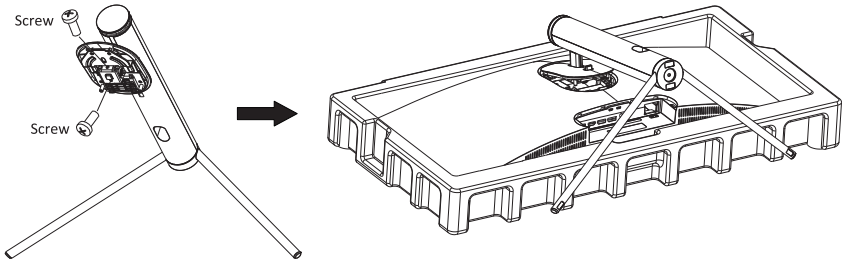
3. Tighten the bracket and base together with a screw lock as shown in the figure below.



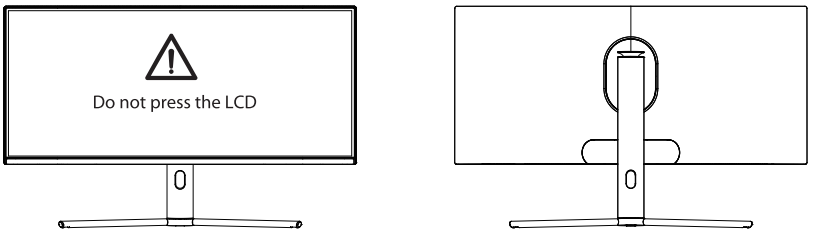
4. Move the quick release button up to remove the shaft assembly.



5. Assemble the shaft assembly to the bracket as shown in the figure and lock it with the accessory screws, Buckle the installed base back to its original position.
(Pay attention to check: whether there is any looseness.)



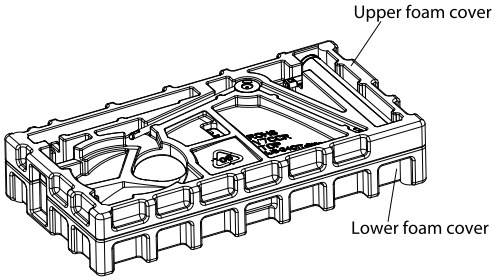
6. Simply hold the stand with hand to stand the monitor upright.



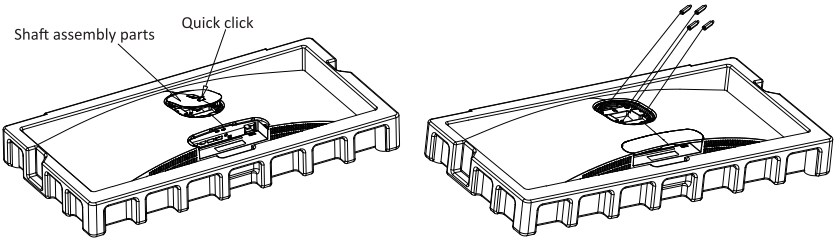
⚠ Note: During standing of the monitor, do not take out the monitor from foams, and do not pinch the liquid crystal screen with hand to avoid damage to the screen.

Installation of mount

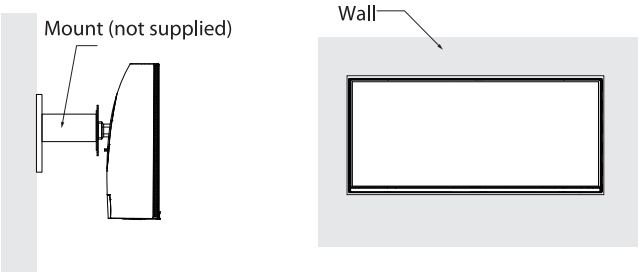
1. Open the package to take out foams wholly and put them on a flat tabletop.



2. Remove the upper foam cover and put it aside, take out the monitor film bag and put the monitor in the lower foam cover. Toggle the quick-disassembly button of the decorative cover upwards, and remove the decorative cover.Take out four studs for hexagon irons from the accessory bag to and lock them on the rear casing.

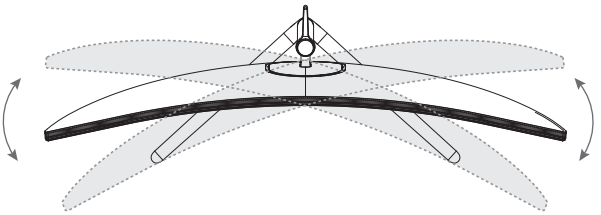


3. During padlocking of the monitor, do not pinch the screen with the hands to avoid damaging the screen. Install the mount to the mount stud by referring to the user manual of the mount (purchased separately). Tips: The mounting hole distance of the mount for the product is 75x75mm.

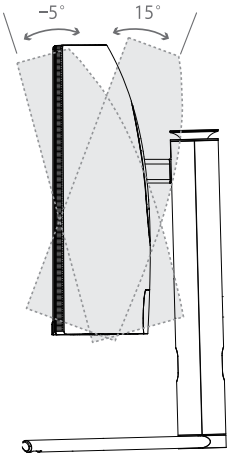


⚠ Notes: To prevent the monitor on the mount from failing, please install it firmly and protect it fully. Do not place or hang any object on the mount, and the using height of the mount should be less than 2 meters.

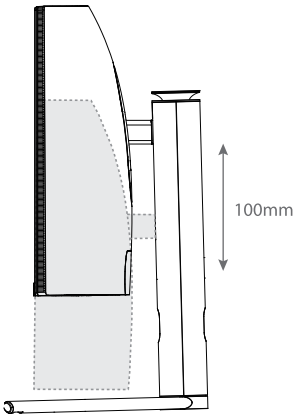
Adjustment of monitor



Rotation angle
-15°(±2.0°)- +15°(±2.0°)



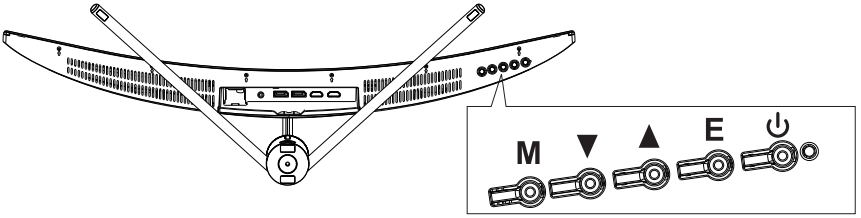
Tilting angle
−5.0° (±2.0°)− +15° (±2.0°)



Height adjustment
0− 100mm (±5.0mm)

Instructions for use

Description of buttons



Button	Function
M	Menu button: Press to enter sub-menus/ quickly enter the main menu
▼	Down button: Press to move down in the menu/quickly adjust the Game Crosshair
▲	Up button: Press to move up in the menu/quickly enter the Scene Mode
E	Exit/hot key: Press to return to the previous menu/quickly switch input signals of the port

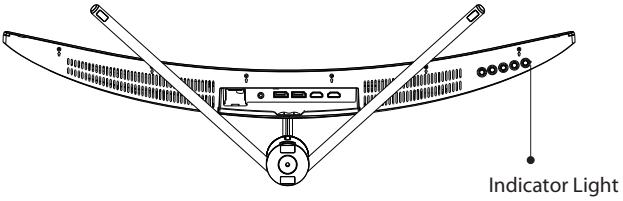
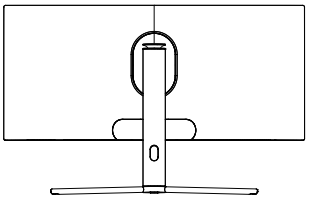
Explanation of indicator light



Indicator light : A steady blue light indicates that the power is on and the monitor is operating normally. A red light indicates that no horizontal or vertical sync signal or no video input signal is detected, and the monitor is in standby. Make sure your computer is turned on and functioning properly and check that all video cables are fully plugged in and/or connected to the monitor.

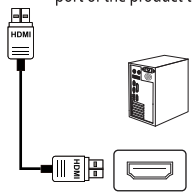
Cable connection



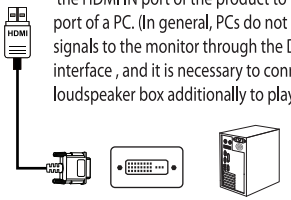
* The bottom interface configuration at the back of the monitor varies with products.
* Note: If the power cable or signal cable is damaged, you must replace it with special soft cables or special components purchased from the manufacture or maintenance department.

HDMI interface

Use the HDMI cable to connect the HDMI IN port of the product to the HDMI OUT port of a PC.

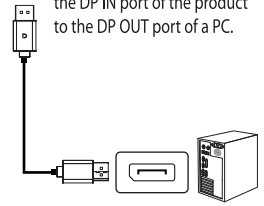


Use the HDMI-DVI cable (not included) to connect the HDMI IN port of the product to the DVI OUT port of a PC. (In general, PCs do not transfer video signals to the monitor through the DVI OUT interface , and it is necessary to connect a loudspeaker box additionally to play sounds of PCs.)



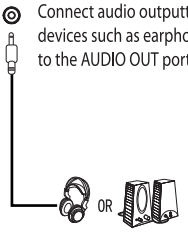
DP interface

Use the DP cable to connect the DP IN port of the product to the DP OUT port of a PC.



AUDIO OUT

Connect audio outputting devices such as earphones to the AUDIO OUT port.



AC IN interface

Please connect the power cable plug to the corresponding port of the monitor, and connect the other end to a properly grounded power outlet.
